

1979 C&C 34

After sailing our C&C 34 on Lake Diefenbaker for the past 12 seasons we have decided to put her up for sale. The boat originates from Toronto and has always been sailed in fresh water and stored on land for the winter months. It is well equipped for local conditions and we hope that she will give someone years of enjoyment. With an inventory of 11 sails it takes a few seasons just to try them all out.

C&C's are well known to Elbow Harbor for their quality, sailing characteristics and unmistakable lines. Their upwind sailing abilities are great for a narrow lake such as ours, since we're usually sailing upwind. C&C originated in Canada and in its first 17 years, C&C built 7,000 boats. The right mixture of speed and comfort has produced a string of successful racer/cruisers, and continues to guide C&C today.

Asking Price Reduced to \$40,000
